*What is Truth !" said jesting Pilate, on a certain cecacion. Truth is always felt, and so is a hat, and conrequently the true hats are only to be found in one spot, and that is at the store of KNOX, No. 128 Fulton street. There may be other places, in a large city like this, where hats are sold, as well as the verdant citisens who buy in those places; but people who are in possession of common sense, as well as four hundred copper cents or their equivalent, should avoid experimenting in the hat trade, and go to a store where they are sure to obtain a hat that can be relied en. Such a hat store is the one to which we allude, at No. 128 Fulton street. We need not say more on the present occasion.

Spring and Summer Clothing—Just Re-esived, 2000 frock and sack coats, \$3 to \$10; 2000 business easts, \$1 to \$4; 2000 pair cassimere and doeskin pants, to \$4; 2000 vests, \$1 to \$2; 2000 lines sephyr and alpace easts, \$1 to \$3; a few over coats, \$5. Cornor Nassau and Bookman streets.

Brushes, Wood, Willow, and Cedar Ware; Manilla, Sisal, India, Hemp and Cotton Cordage: Wool, India, Heine and Cotton Wrapping Twines; Matches of all hinds; Alcasti, Jute, Cocoa, Skeleton and sheep skin door Mats, cheap for each at the Woodware Depot and Brush Hamufactory, JOHN LADEN, 190 Washington street, first door south of Pulton street.

Gompert's Mildew-proof Awnings, mad at No. 101 Bowery. Reference-New York Herald, New York Express, and New York Tribune offices.

A Chapter on Shirts.—Thos. McLaughlin sener of Greenwich street, is now prepared to supply the shirt wearing community with as good and as sheap an article as any in the city; also Collars, Cravats, and every saing in his line. English and German Hosiery of all kinds.

Spring does not furnish a more beautiful natural garment for the trees, than GREEN, No. 1 Actor House, provides by the aid of art for the person of a gentleman. His shirts, made to order, on scientific principles of measurement, are as appropriate to the forms of the wearers as are the leaves to the graceful limbs of the maple or the willow.

California.—Persons of healthy constitu-tions, shout to proceed to California, to travel or reside, ean effect an insurance on their lives at an extra premium of two per cont for the former, or one per cent for the lattice, at the fational boan Fund Life Insurance Company of Goneton No. 7 Grand street, Jersey City. A guarantee fund control in American trustees. All chains payable in New York. Medical effects in attendance daily. For rates of premium and general information, apply as above. J. LEAN DER STARR, General Agent.

Secret explained.—It is a Fact that the cheap work of boots and shoes as done in the manufactories at Linn, is far superior in strength and beauty to those done in New York or Philadelphia, by the best hands. The means is that Singer's Sowing Machine, worked by hand, will do what no human hands can do alone, in working on leather, cloth, or anything that can be sewed.

1. M. SINGER & CO., 256 Broadway.

To J. G. Bennett, Esq.—Air—On the Soch of last February, I wrote you soliciting Your intervention to make known to the higher reading and thinking classes the almost certainty with which the ravages of consumption can be staged. I now ask publicly if you received that letter; for it becomes imperative on my part to enforce (all in my power) an investigation into this phenomenon of nature. I am now satisfied it is no chimera, but works certainly and powerfully, throwing off disease and debility as surely as it is taken in proportion to the need. I have never known one solitary instance of failure when the brain has been positively electriced or charged. The simple fact that deaths by consumption were reduced from Otto 24 a week, in this city, during the period I gave away thousands of bettles to the poor (until I had no more to give away), and now they are 50 and 66 again, ought to be sufficient eitherned to cause inquiry, which can castly be proved by the City Inspector's reports and my advortisements. Respect of the Nervous Antidote.

emosphion or reservation the very best over invented; equally selebrated is GOURAUD'S Medicated Scap, for curring pimples, frechies, sallownes, chase, chafes, roughness, as Poudre Subtils uproots heir from any part of the body Léquid Ronge, Lily White, and Hair Gloss, as & Walkerston, near Broadway.

Cristadoro's Liquid Hair Dyc—Astor House.

—This preparation revolutionizes the whole theory of hair dycing. It is a perfect substitute for the coloring matter prepared by nature in the healthy scalp. It circulates through the fibrous mass in the same way, and, instead of retting the hair, like other dyes, renews its vegetires strength. Not only does it change gray hair to brown or black, but increase life into the torpid and docaying fibres, and into the sace from which they apring. Its operation is as quick as theught; red, gray, or light hair is changed to any given shade, in from five to ten minutes, without inconvenience, and without solling the skin of the head. Ample proof of the extraordinary qualities of this unique preparation will be afforded by the proprietor to all inquirers, as this well known Wig and Scalp Establishment. 6 Anter House, where it is applied, and sold wholesale and retail.

The Best Hair Dyc.—Ballard's is decidedly the best that we have ever seen. It has received the highest premiums in New York, and may be relied upon as a choice article. Depot 41h Broadway, corner of Lispenard street, N. Y. The hair also prevented from failing off by using Bal-lard's Chemical Hair Fastener.

Hair Dyc.-Batchelor's celebrated Liquid Hair Dye is the best yet discovered for coloring the hair or whiskers, the moment it is applied. The wonderful case and certainty with which this favorite and old established Hair Dye performs is astonishing. It is for asle, or applied, at BATCHELOR'S Wig Factory, No. 4 Wall street. Copy the

Wigs and Toupees.—Batchelor's new style of Wigs are preneunced the most perfect insitation of nature yet invented. Those wanting a very superior article, should all as BATCHELOR'S celebrated Wig Pactory, No. 4 Wall stylest, where can be found the largest and best assortment in the city. Copy the address.

Toznav, April 6—6 P. M.

There was considerable activity in the stock market, this morning, and there was evidently a desire among several large holders, to get rid of some of the leading fancies. Eric Railroad was particularly active, but maintained itself firmly. Harlem was in demand, there being more havens then actives and wrices advanced from the more buyers than sellers, and prices advanced from the opening. Canton Company was the most buoyant fancy on the list, and the sales were unusually large. There are on the list, and the sales were unusually large. There are indications of a speculative movement in this stock, and it would not surprise us to see as great and rapid an advance in prices as any fancy has realized for a long time. New Jerrey Zinc closed at prices current yesterday. Several companies have recently been formed in this vicinity, for the manufacture of sinc paints; but we believe that the Newark Company possesses a monopoly of these peculiar minerals (franklinite and red oxide of sine.) The manufacture of good paint depends upon the purity of the ore. Nicaragua was rather quiet to-day. At the se-cond board, yesterday, holders were firm at an advance. The departure of the steamship Northern Light belonging to this line, with nearly six hundred passengers for tran sit across the Isthmus of Nicaragua, has had a favorable influence upon the stock. Reading opened heavy, and closed at a decline. The state of the coal trade in the Schuylkill region is undoubtedly the cause of this de pression in Reading Railroad stock. The system so ex-tensively practized in that section, of forcing coal into the market when not required, operates very injuriously upon the mining interest. Dealers who own wharves in Richmond have shown a disposition to purchase coal from those who have not facilities for shipping at that port, at fair prices, provided they would hold back a liftle until the coal was required. This, if accepted, would sustain prices, and benefit all classes; but these speculators, or whatever they can be called, appear to have some other object in view than sustaining fair prices and are making every effort to depress the market. What of the transportation companies connected with it. The miners are, at this early day, groaning under the pre-sent rates of toll on the canal and railroad, and it is more than probable that both companies will be compelled to reduce their traffic. The effect of such a movement can

The receipts at the office of the Assistant Treasurer of this port, to-day, amounted to \$161,634 46; payments, \$86,756 74—balance, \$3,104,233 76. For several days past the importations, judging from the receipts at the Custom House, have been very large. Several packets have lately arrived from Liverpool, London, and Havre, with full and valuable cargoes, and the appearance of our fo-reign trade at present is decidedly in favor of a heavy importation for the month. The cessation of specie shipments is calculated to give a fresh impulse to imports and we have no doubt orders will be enlarged and credits extended, which, under a more stringent money market, would have remained restricted. As the specie basis of the banks increases, the line of discounts will expand, and mere easily obtained. When we were shipping three and four millions of specie per month, importers were more cau-tious, and cut down their movements as much as possible. Such a course would, before the close of the year, have placed our foreign trade upon a better basis, and much reduced the balance against us; but we could not maintain such a favorable and desirable state of things. For a time, at least, we shall probably go on as extravagantly and heedlessly on the other tack, which will only be arrested by large shipments of the precious metals.

Owing to the unusually cold weather, the condition

the embankments will not permit of the opening of the New York State canals on the 15th inst., as heretofore announced. The Canal Commissioners have accordingly postponed the opening of the canals until the 20th instant.

There will be a sale at auction to-morrow-Wednes lay seventy-five shares of the Phoenix Cumberland Coal stock. This is the most prominent coal company in that region, and will commence bringing coal to market about the 1st of May next. All the improvements necessary to turn out coal have cost but about fifteen thousand dol-lars, which has been funded for twenty years. This is the only debt the company has. The mineral property is large and immensely valuable, and the coal of the most superior quality. The company have two outlets to mar-ket—the Chesspeake and Ohio Canal, and the Baltimore and Ohio Railroad. The first boat with coal from the Cumberland region descended the Chesapeake and Ohio canal, from Cumberland, on the 8th of March; since which time, up to the 1st of April, 7,086.5 tone coal and 06.4 of coke have been taken to market.

ANTROLOGY, & ANTROLOGY, & ANTROLOGY, AN EDITORIAL FROM THE ESSEX STANDARD, OF March 11, 1882.

Roback's fame the world pervades,
The press his triumphs tell,
And from the north, south, east and west,
The notes of glory swell.

The WONDERS OF ASTROLOGY. This is an age of wonders, and the marvels of Astrology, as practiced by that extraordinary Swedish professor, Dr. Roback, late of Stockholm, and now of New York, are not among the least striking of the phenomens of science. He seems not merely to have revived that art is which Napoleon trusted, and Sir Walter Scott is said to have believed, but has made new discoveries in it, which have led to the most startling results. The ancient Magio of Egypt and Assyria, could they revisit the earth, might learn something of this modern Diviner. His applications of the art are all practical. While in Sweden he east the nativity of King Bernafotte, and predisted the year of bis death. When General Taylor was supposed to his these annihilated by the superior forces of Santa Anna, these annihilated by the superior forces of Santa Anna, of the second of the
